2. **Quality Assurance Controls**

The Management Model includes a Strategic Account Team (SAT) dedicated to supporting the government. This cross-functional unit supports the implementation and administration of our contracts system-wide. The team is composed of Contract Administrator(s), Program Manager(s), Consultants, Regional Account Directors, Certified Recruiters, Administrative and Operations Support Staff. The Team has extensive experience working with and supporting ID/IQ Contracts that are multi-lateral, high-volume, and geographically diverse.

We are committed to providing an experienced management team that will be fully empowered to provide strong, centralized account management, while delivering responsive service to each of your internal end users. Our team will be fully accountable for administering service delivery throughout your organization, including Subcontractor management and quality assurance
